UHV-Assignment 2

Aim : To understand prosperity vs accumulation by discussion on –
“What is meant by prosperity? How can it be ascertained? Does accumulation ensure prosperity?”

What is meant by prosperity and accumulation?

- ⇒ Prosperity is defined as the state of success, wealth and good fortune. When someone possesses more than required number of physical facilities, they may feel prosperous. Prosperity is a feeling that also includes Wealth.
- ⇒ Accumulation is to collect or increase the amount of something, We can also say that the accumulation is gathering of more and more material sources and physical facilities.

Why is it important?

- ⇒ It is important to know the difference between the prosperity and accumulation because by having all the things in abundance won't be helpful to live a happy and prosperous .
- ⇒ You have to understand the real meaning of prosperity as it is the only thing in our life which can give us the real happiness or contentment in their success.

Does accumulation ensure prosperity ?

- ⇒ Prosperity is the feeling of having accumulated enough.
However, accumulation does not directly lead to prosperity.
- ⇒ Accumulation is the materialistic feeling or emotion but the prosperity is the feeling of accomplishment or success in financial state and in different states.
